

Welcome to our Office!

New Patient Intake Form

Date _____

Name _____ Preferred Name _____

Birthdate (D/M/Y) _____ Age _____ Sex F M

Address _____ Unit _____

City _____ Province _____ Postal Code _____

Home # _____ Cell # _____

May we contact you at work? Yes No Work # _____ Extension _____

_____ Email Address: _____

Yes! I would like to receive your Monday Morning Health Tips.

Who referred you to our office or how did you hear about us? _____

Marital Status _____ Spouse's Name _____

If you have children, how many? _____ Their names _____

Do you have pets? If so, what species? _____

Emergency Contact Person _____ Relationship to you _____

Contact Phone # _____ Alternative contact # _____

What is your occupation? _____

Company Name _____

Do you have extended healthcare benefits? Yes No Benefits are personal or from work

Have you had previous chiropractic care? Yes No

When and where? _____

Were x-rays taken? Yes No If yes, when? _____

Family doctor _____ Date of last physical _____

Have you been treated by a physician for any health condition in the past year? Yes No

Describe condition _____

Surgical operations and years _____

Are you now taking any medication? Yes No

Name of medication and reason _____

Are you now taking any vitamins/herbs/homeopathies/other? Yes No

Name and reason _____

Are you pregnant? Yes No If yes, what month?

Is your visit due to an accident or injury? Yes No

If yes, describe _____

What is your major health concern? _____

How long have you been experiencing this? _____

Is this condition: Getting worse Staying the same Improving Intermittent

Constant

Where is the problem? Please use the illustrations and lines below to explain.

Front _____

Back _____

Right Side _____

Left Side _____

Head and Face _____

Do you have: Pain Numbness Tingling Aches Squeezing Tenderness

Tightness

Is your pain: Sharp Dull Throbbing Constant Intermittent Pinching

Intense

Are your symptoms affected by any of the following?

Sitting Standing Walking Bending Lying down Weather Other

Please Explain _____

Do you feel Cramps Burning Swelling Stiffness Other

Please Explain _____

Is this concern interfering with any of the following?

Work Sleep Daily routine Play/Hobbies Other

Please Explain

On a scale of 1-10 (1 being the least, 10 being the most), please rate the severity of your symptoms:

1 2 3 4 5 6 7 8 9 10

Other health professionals seen for this health concern: _____

Do you have, or have you had, any of the following (please check all that apply)

Pneumonia Mumps Influenza Rheumatic fever

Smallpox

Pleurisy Polio Chicken pox Thyroid disease Diabetes

Epilepsy Cancer Depression Whooping cough Anemia

Eczema Measles Arthritis Heart disease Rashes

If you have ever been diagnosed with another disease or condition, please describe it:

Do you use

Coffee Tea Artificial sweeteners Sugar Alcohol Cigarettes Recreational

drugs

Have you ever suffered from (please check all that apply):

Neck pain Stuffy nose Discolored urine Low back pain

Allergies Gas/Bloating after meals Headaches Fainting

Heartburn Migraines Weight loss Colitis

Arm/back tingling Poor appetite Irritable bowel Shoulder pain

If yes to any of the above, please describe: _____

Any other comments that you would like to inform the doctor about, please explain below:

In your own words what do chiropractors do? _____

Do you know what spinal nerve stress/subluxation is? Yes No

If yes, please describe _____

Are you seeking chiropractic for: health maintenance/optimization health problems

both

What would you like to gain from chiropractic care? _____

How long do you think it will take for your symptoms to go away? _____

How long do you think it will take to correct the problem? _____

Are there other health concerns or anything else you'd like us to know about you? Yes No

If yes, please tell us: _____

Notes _____

CONSENT TO CHIROPRACTIC TREATMENT

It is important for you to consider the benefits, risks and alternatives to the treatment options offered by your chiropractor and to make an informed decision about proceeding with treatment. Chiropractic treatment includes adjustment, manipulation and mobilization of the spine and other joints of the body, soft-tissue techniques such as massage, and other forms of therapy including, but not limited to, electrical or light therapy and exercise.

Benefits:

Chiropractic treatment has been demonstrated to be effective for complaints of the neck, back and other areas of the body caused by nerves, muscles, joints and related tissues. Treatment by your chiropractor can relieve pain, including headache, altered sensation, muscle stiffness and spasm. It can also increase mobility, improve function, and reduce or eliminate the need for drugs or surgery.

Risks:

The risks associated with chiropractic treatment vary according to each patient's condition as well as the location and type of treatment.

The risks include:

- **Temporary worsening of symptoms** – Usually, any increase in pre-existing symptoms of pain or stiffness will last only a few hours to a few days.
- **Skin irritation or burn** – Skin irritation or a burn may occur in association with the use of some types of electrical or light therapy. Skin irritation should resolve quickly. A burn may leave a permanent scar.

- **Sprain or strain** – Typically, a muscle or ligament sprain or strain will resolve itself within a few days or weeks with some rest, protection of the area affected and other minor care.

- **Rib fracture** – While a rib fracture is painful and can limit your activity for a period of time, it will generally heal on its own over a period of several weeks without further treatment or surgical intervention.

- **Injury or aggravation of a disc** – Over the course of a lifetime, spinal discs may degenerate or become damaged. A disc can degenerate with aging, while disc damage can occur with common daily activities such as bending or lifting. Patients who already have a degenerated or damaged disc may or may not have symptoms. They may not know they have a problem with a disc. They also may not know

their disc condition is worsening because they only experience back or neck problems once in a while.

Chiropractic treatment should not damage a disc that is not already degenerated or damaged, but if there is a pre-existing disc condition, chiropractic treatment, like many common daily activities, may aggravate the disc condition.

The consequences of disc injury or aggravating a pre-existing disc condition will vary with each patient. In the most severe cases, patient symptoms may include impaired back or neck mobility, radiating pain and numbness into the legs or arms, impaired bowel or bladder function, or impaired leg or arm function. Surgery may be needed.

- **Stroke** – Blood flows to the brain through two sets of arteries passing through the neck. These arteries may become weakened and damaged, either over time through aging or disease, or as a result of injury. A blood clot may form in a damaged artery. All or part of the clot may break off and travel up the artery to the brain where it can interrupt blood flow and cause a stroke.

Many common activities of daily living involving ordinary neck movements have been associated with stroke resulting from damage to an artery in the neck, or a clot that already existed in the artery breaking off and travelling up to the brain. Chiropractic treatment has also been associated with stroke. However, that association occurs very infrequently, and may be explained because an artery was already damaged and the patient was progressing toward a stroke when the patient consulted a chiropractor. Present medical and scientific evidence does not establish that chiropractic treatment causes either damage to an artery or stroke. The consequences of a stroke can be very serious, including significant impairment of vision, speech, balance and brain function, as well as paralysis or death.

Alternatives

Alternatives to chiropractic treatment may include consulting other health professionals. Your chiropractor may also prescribe rest without treatment, or exercise with or without treatment.

Questions or Concerns

You are encouraged to ask questions at any time regarding your assessment and treatment. Bring any concerns you have to the chiropractor's attention. If you are not comfortable, you may stop treatment at any time.

Please be involved in and responsible for your care. Inform your chiropractor immediately of any changes in your condition or any new conditions that arise.

DO NOT SIGN THIS FORM UNTIL YOU MEET WITH THE CHIROPRACTOR.

I hereby acknowledge that I have discussed with the chiropractor the assessment of my condition and the treatment plan. I understand the nature of the treatment to be provided to me. I have considered the benefits and risks of treatment, as well as the alternatives to treatment. I hereby consent to chiropractic treatment as proposed to me.

Acupuncture Intake Form

Which body part do you want to have treated with acupuncture? _____

Have you ever had acupuncture treatments done in the past? NO _____ YES _____

If YES, for which body parts and/or conditions? _____

Did you have any adverse reactions to the needles (such as increased redness, fatigue, drowsiness, etc)?

Do you have any allergies to metal? NO _____ YES _____

If YES, to which metals? _____

Do you bruise easily? NO _____ YES _____

If YES, is it due to a known bleeding disorder? _____

Are you taking any anti-coagulants (blood thinners) or other medications? NO _____ YES _____

If YES, what medication is it? _____

Do you have a decreased bone density? NO _____ YES _____

If YES, when was the last time your bone density was checked? _____

What was the result of the bone density scan (DEXA)? _____

Are you scared or feel uneasy about the use of needles? NO _____ YES _____

If YES, any additional comments? _____

Do you experience fainting or seizures? NO _____ YES _____

If YES, how often do you experience it? _____

Do you have a pacemaker or any other electrical devices? NO _____ YES _____

If YES, what is the device? _____

Are you pregnant, suspect you may be pregnant or are trying to conceive? NO _____ YES _____

Any additional concerns/comments: _____

CONSENT TO ACUPUNCTURE

It is important for you to consider the benefit, risks and alternatives to the treatment options offered by your chiropractor and to make an informed decision about proceeding with treatment.

I consent to the performance of acupuncture and other procedures related to acupuncture, as necessary, including electro-acupuncture by the authorized doctor in the clinic.

The risks associated with acupuncture treatment vary according to each patient's condition, as well as the location and type of treatment. I understand and am informed that in the practice of acupuncture there are some risks to treatment, including, but not limited to, minor bleeding or bruising, minor pain or soreness, nausea, fainting, infection, shock, convulsions, possible perforation of internal organs, and stuck or bent needles.

I have been advised that only pre-sterilized and packaged needles will be used. All acupuncture needles are properly disposed of after each and every treatment.

I do not expect the doctor to be able to anticipate and explain all possible risks and complications. I wish to rely on the doctor to exercise judgment during the course of the treatment which the doctor feels at the time, based upon the facts then known, which is in my best interests. I understand that the results are not guaranteed.

I have read this consent form. I have also had an opportunity to ask questions about its content, and by signing below I agree to the above mentioned acupuncture procedures. I intend this consent form to cover the entire course of treatment for my present and future conditions for which I seek treatment.

N.B. Female Patients:

I fully understand that in the case of pregnancy, a risk of causing fetal distress with acupuncture treatment(s) is possible. I hereby state that I am not pregnant, nor is there any possibility that I may be pregnant.

You are encouraged to ask questions at any time regarding your assessment and treatment. Bring any concerns you have to the doctor's attention. If you are not comfortable, you may stop treatment at any time.

Please be involved in and responsible for your care. Inform the doctor immediately of any change in your condition.

Please read the entire form before signing.
